Radio coverage achievable using a modem and a suitable antenna
Enhanced radio coverage achievable using a modem and an elevated antenna
Maritime coverage
Enhanced maritime coverage
Major roads
Railway lines

The above coverage map is based on computer prediction for both fixed and mobile applications. Coverage may be affected by local factors such as atmospheric conditions, topographical features and building structures. The area depicted is subject to the scale of mapping and does not represent a guarantee of service availability. ADT Wireless is continuously expanding its national Network coverage. For more detail on coverage in specific areas, or for further information, contact ADT Wireless on (02) 9947 7950
